

High friction paints for coloured surface treatments

Engineered for high performance

ENNIS-FLINT® by PPG HELIX waterborne acrylic paint is manufactured with pre-mixed antiskid material.

Helix is engineered to provide high performance and durable markings that resists heavy traffic from motorless vehicles, making it ideal for micro-mobility schemes.

Formulation

Engineered to provide high performance and durable marking to resist heavy traffic from motorless vehicles

Formulated for stable long-lasting colour retention and fast drying time

Installation

Applied with brush, roller or conventional marking machines (except for airless)

Suitable for concrete with primer

New asphalt should be aged for 4-6 weeks prior to painting

Key Benefits

Provides a slip-resistant surface for cyclists and other users

Increases awareness of shared roadway use

No solvents

A wide variety of colours available

Certification

Facility is BS EN ISO 9001:2015 certified for the design, development and manufacturing of waterborne paint
